**ROCK IT**

---

# HIGH LEVEL CONCEPT OF MY VERY ORIGINAL GAME

- ▶ "Rock It" is a remix of the classic game Pac Man.
- ▶ The goal of the game is collect "Whammy Bars" until you have enough to play the final song of the level.
- ▶ Each level has a game winning song.
- ▶ Once the final song starts playing, you must still collect enough whammy bars to keep to song playing. You beat the level once the song plays all the way through.
- ▶ However, once your final song starts playing "auto tunes" randomly appear in the game, hitting to many of these and not enough Whammy Bars will cause the song to stop.
